

To add students to be authors or editors of a class blog on blogger:

Go to Settings>Basic

Then add users by clicking “add user” at the bottom of the ‘blog authors list

Students are able to access the account from a different email address, but will have to create a profile in order to use the site.

The permissions level can be set to “Author” or “Admin” Authors can contribute to the site, creating pages, etc. Admins can change the appearance of the site, add more users, and remove the site.
